²Fixed Loan Rates are based on amount financed, term, credit qualifications and performance. Note on Amortization: Terms and amortization schedules vary based on collateral type. For example, a loan may feature a 60-month term with a 120-month amortization, resulting in a balloon payment for the remaining balance at the end of the term.

Actual annual percentage rate, terms, and dollar amount based upon many factors evaluated at the time of application, which may include, among other factors, borrower's credit history, loan terms, loan purpose, loan-to-value (LTV), and any applicable administrative/processing fees. All loans are subject to credit review and approval. Other restrictions and fees may apply.
